

Bass note 2 notes higher than treble

### (3) Dream Boat

Moderato

**Technique:** Right Hand, observe (1) Different Positions of the Tonic Chord, I; (2) Octave jumps of the Dominant-Seventh Chord, V7. In playing chords, be sure that the three tones are struck precisely together, with good tone quality.

**Notation:** The sign,  $\text{C}$  (*alla breve*) means that there are two counts in a measure, each count represented by the value of a half note.

#### TONIC CHORD POSITIONS.

1st Position	2nd Position	3d Position	1st Position	1st Position	2nd Position	3d Position
--------------	--------------	-------------	--------------	--------------	--------------	-------------

C is the "Root" of the chord, the tone on which the chord is built.  
Where does the Root appear in each position?
